MAKE THEIR HOME IN AN AUTOMOBILE

The Huston Family, of Chicago and Rockledge Have Started Across Continent in an Automobile.

George M. Huston, a retired jeweler of Chicago, his wife and son, Arthur, who acts as chauffeur, started from the Bellevue-Stratford in Philadelphia, recently in a sixty horsepower touring car, bound for San Francisco and thence to Florida, says a Philadelphia special to the New York Times.

For the past seven years the Hustons have practically made their home in automobiles, in which they have traveled 120,000 miles in the United States and Canada. Mr. Huston carries sixty pounds of paraphernalia which includes a complete camping outfit, hammocks, a large tent, cooking utensils, bedding, guns, ammunition, fishing and many other articles. Mr. Huston says that his hobby has cost about \$10,000 a year, not including the cost of five cars in the last seven years.

He says he was the first autoist to obtain permission to drive his car into Yellowstone park. Shovels had to be used a portion of the way to clear away a portion of the snow. He has also gone over portions of the Alleghany and Cumberland mountains where others have turned back, discouraged by steep and rocky roads. Mr. Huston is more than sixty years old and is the picture of health.

The trip to San Francisco is expected to take thirty-five days. The Huston schedule calls for only eight hours of autoing a day. After San Francisco has been reached the tour will be continued down the Pacific coast, thence to El Paso, New Orleans, across North Florida to Jacksonville, thence down the East Coast to Daytona and on to Rockledge, where Mr. Huston owns a winter home.

This party has visited Daytona several times and was the first party to make the trip down the coast from Jacksonville in an automobile, the trip being made successfully but with many difficulties, in several places having to virtually chop their road through the timber. Mr. Huston's trips have heretofore been made in a White steamer and he is probably using the same car on this tour. He is a pioneer in automobiling in Florida and has many friends and acquaintances all along the East Coast.

Dry Dock Completed.

The wharf and boat ways undertaken by F. A. Root on the west bank of the river between the north and middle bridges were recently completed and at once put to use, C. G. Burgoyne's yacht, the Sweetheart being the first boat docked, followed by Mr. Root's houseboats the Whatnot and Buckeye.

The principal is that of a dry dock and not the usual boat ways, as the boats are floated or run in by their own power and then raised by means of large metal screws ten feet in length and twelve in number, six on each side. These screws were made at Palatka.

It took but an hour and half to dock the Sweetheart, which is eighty-two feet in length and fifteen foot beam. The boats remain on an even keel during the process and the weight is evenly distributed throughout.

The Buckeye is eighty-three feet by twenty-two foot beam and the Whatnot eighty-six by twenty feet. The dock is capable of handling a boat ninety by twenty-four feet.

A wharf 550 feet in length connects the dock with the west shore of the Halifax and there is a depth of six feet of water at the end of this wharf, and at the dock which will be a great convenience to the larger yachts and houseboats visiting these waters that have heretofore been unable to haul their boats out here for needed painting and repairs.

No charge for preliminary plans and estimates; supervision of work at actual cost. Norman S. Dayton, Daytona.

WITH ONE DAY TO LIVE WHAT WOULD YOU DO?

If tomorrow were your last day on earth, how would you spend it?

Would you fear for your soul, think of your past misdeeds and try in twenty-four hours, to atone for the past?

Or would you make an effort to crowd in as much fun as possible in the remaining few hours on earth?

Or would you go to church and spend the intervening time on your knees?

Or would you hire an auto and take a crowd of "boon" companions out for a farewell time?

Daytona is full of curious folks. Some look death in the face with a smile on their lips; others shudder at the thought of their last day on earth.

But if what they tell the Gazette-News is sincere, some of them are cynical and don't care much whether school keeps or not.

Here is what they say—

Who do you agree with?
F. M. Rowe—Jeweler and member of City Council—I should want that twenty-four hours to think about it. Most people would be afraid, but I would take my chances.

R. T. McFadden—Curio Dealer—I think I would go and see a minister. Say, that would be a h— of a fix to be in, wouldn't it?

Henry T. Titus—Justice of the Peace—I would get plenty of good refreshments, get a good jolly crowd and enjoy myself the best I could.

J. L. Wallace—Curio Dealer—I would start in "knocking" to beat the band.

W. R. Smith—Assistant Postmaster—I don't know; I would do some tall thinking.

R. L. Smith—Real Estate—I would get my worldly affairs in shape.

W. M. Hankins—Druggist—I think I would put in most of my time praying, but the chances are that I would worry myself to death before the twenty-four hours elapsed.

M. B. Church—Pharmacist at Atwood Pharmacy I'd die in less than twelve hours worrying about the end.

Monthly Financial Statement of County Board of Public Instruction.

State of Florida, Co. of Volusia.

DeLand, Oct. 7, 1907.

To Hon. S. D. Jordan, Clerk Circuit Court:

Mr. and Mrs. J. C. Stowers were in the city from Sunday until Monday afternoon, having stopped over on their way to West Palm Beach from a visit to points in Maine. Mr. and Mrs. Stowers have many friends here as they were at one time residents of Daytona.

THE PICTORIAL GAZETTE-NEWS

For the Season 1907-08 will be a Magnificent Production.—Now in Hands of the Printers.

The mammoth Pictorial edition of the Gazette-News for the season of 1907-08 is now in the hands of the printers. It will be about the size of last year's work and with new illustrations and new articles will be as meritorious as was the one issued a year ago.

No work of recent years has helped so much to advertise as did our last pictorial. It went to thousands of northern homes and was the result of bringing many to Daytona that could have been reached in no other way. The work this year will also be sent to thousands who are thinking of Florida and cannot but be of great help in advertising Daytona and the peninsula.

The merchants and professional men of this section are taking kindly to our latest publication and if you are not already represented in its advertising columns you should be. The same liberal rates apply to this year's pictorial as were given on the one of a year ago. Don't miss securing a space within its covers.

CRIMINAL COURT PROCEEDINGS.

Sensational Escape and Recapture of Two Daytona Parties. Other Cases Convicted.

Criminal Court was in session at DeLand last week and was marked with several important happenings, the most important being the escape and recapture of Leonard Gill and Henry Giddens, who were charged with selling liquor at this place some months ago. The case against them had been continued, and when called up the first of the week they failed to appear. Their bonds were estreated and they appeared and plead guilty. Judge Stewart fined them \$1000 and costs each and they left the courthouse with their attorney, their object being to raise a ninety day bond for the fine and costs. They went to Cranor's livery and were driven to Volusia, several miles north of DeLand on the St. Johns river, where they boarded the Clyde boat and went to Palatka. When they were missed Sheriff Turner wired to all possible objective points, including Palatka, and they were caught when they left the boat by Marshal Hogan of that place.

The docket was exceptionally large. About ten pleas of guilty were entered in minor cases and penalties imposed. A "cussing match" from DeLeon Springs aroused considerable interest and five defendants, including two women, plead guilty to using profane language. A fine of \$5 and costs was entered against each.

Harrison Thompson, a colored man from Daytona, was tried for selling liquor and convicted. He had been here before on this charge, and was fined \$450 and costs.

Solicitor Perkins had fine success and only had three acquittals out of about a dozen cases tried.

At McDonald's Boat Yard.

C. M. McDonald has recently completed and launched a boat at his boat yard on South Beach street for J. J. Sullivan, of St. Petersburg, and Roy Longe is to deliver her to Mr. Sullivan at that place. She is constructed on the same lines as the Nadaline, which was built at the yard last winter for E. D. W. Rose. She is twenty-six feet long seven and a half beam, with a draft of twenty inches, is fitted with a seven horsepower Fay & Bowen engine and on the trial trip developed a speed of about eight miles per hour. She is a roomy, line looking craft, quite up to the high mark always attained by Mr. McDonald in his boat building.

For Sale—Automobile top with irons complete, cheap. Enquire at Gazette-News office.
